

2019 AIS Cost-Share Grant Program - Ranking Guidelines

Consider the ranking criteria below when designing your project and when completing your application. AIS Volunteer Incentive grants will not compete against Management Planning and AIS Control cost-share grant categories.

Management Planning and AIS Control Categories		AIS Volunteer Incentive Category	
Weight of Score	Ranking Topic	Weight of Score	Ranking Topic
20%	AIS Planning Project initiates or completes a strategic planning process <i>Comprehensive Management Plan</i> <i>Lake Vegetation Management Plan</i> <i>AIS Early Detection - Rapid Response Plan</i>	50%	Time commitment Preference will be given to larger time commitments <i>50 hours = standard preference</i> <i>75 hours = increased preference</i> <i>100 hours = high preference</i>
	Elements of AIS monitoring included <i>Pre or Post Treatment Assessments</i> <i>Early detection surveys</i> <i>Contracted AIS mapping</i>	50%	Priority Project Status Project is for a "new" AIS threat to Sherburne County waters <i>New occurrence of a MN Prohibited Species in County</i> <i>Pioneer infestation to a lake (new AIS introduction)</i>
10%	Community Involvement Project includes aspects to increase community capacity <i>Lake resident survey</i> <i>Initiatives for lake community education</i> Partnership included within project <i>Partner organization is donating time / funds</i>		
25%	AIS Management AIS management is consistent with management plan / DNR guidance <i>Proposal has clearly defined goals, follows recommended guidance</i> <i>AIS is targeted strategically (dense colonies, public access, etc.)</i> <i>Integrated management (multiple AIS removal techniques used)</i>		
25%	Feasibility of Project Project is reasonable and has a good chance of success. <i>Methods and acceptable timeline are outlined</i> <i>Program budget is defined and reasonable</i>		
10%	Volunteer Involvement Project sponsor is involved in one or more volunteer programs <i>County-based AIS monitoring programs</i> <i>Sponsor-based AIS or lake monitoring program</i> <i>MN DNR AIS Volunteer program</i> <i>MPCA's Volunteer water quality monitoring program</i> <i>Participation in regional / statewide lake networking group (COLA)</i>		
10%	Priority Project Status Project is for a "new" AIS threat to Sherburne County waters <i>New occurrence of a MN Prohibited Species in County</i> <i>Pioneer infestation to a lake (new AIS introduction)</i>
