

Briggs Lake Restoration

Maria Musachio

Shoreline Restoration

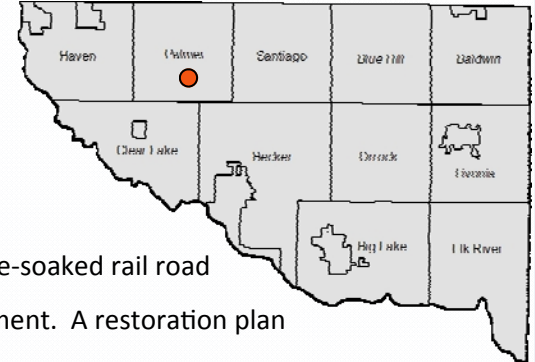

Project Summary

In 2014 Maria Musachio sought assistance from the Briggs Lake Chain Association (BLCA) to plan a shoreline restoration at her cabin property on Briggs Lake.

Before restoration the shoreline, held together by rock rip rap and creosote-soaked rail road timbers, had been pushed up into a steep and unstable slope by ice movement. A restoration plan was designed by Prairie Restorations Inc. , Anything Outdoors Landscaping re-graded the slope of the shore to fit with the natural grade and resituated the rock , Prairie Restorations Inc. prepared the upland area for native vegetation and the BLCA and the Musachio's installed the native vegetation.

The project was funded by the Musachio's, a BLCA Community Partners Grant, BLCA general funds, a DNR grant, and State cost-share.

Before Installation - April 2014

Project Details	Project Funding	Project Partners
Date Installed July 2014	2013 State Cost Share.....\$500.00	Sherburne SWCD
Area1,400 ft ²	BLCA DNR\$2,500.00	Maria Musachio
Linear Feet.....74 ft	BLCA Mini Grant\$500.00	Briggs Lake Chain Association
Buffer width.....15-30 ft	Community Partners Grant.....\$4,000.00	
# of Plant Plugs..... 480	Landowner\$2,740.00	
Phosphorus Reduction..... .0515lbs/yr	Total Project Cost.....\$10,240.00	

After Installation - August 2014
